Transmittal of NEPA Guidance to EG&G FPM

M. L. Glaser, Acting Manager
Facilities Project Management
EG&G Rocky Flats, Inc.

Attached is updated RFO guidance on the timing and prerequisites for National Environmental Policy Act (NEPA) documentation required in support of all DOE projects. The attached guidance is intended to clarify what for some has been a confusing hurdle. Your primary objective should be to complete NEPA requirements as soon as possible to assure NEPA documentation is not the cause of project delays. Close coordination of NEPA deliverables and adherence to baseline schedules is required with the RFO Construction Branch and the RFO Environmental Restoration Division.

If you have any questions regarding the attached guidance, please call John L. Posluszny at 3224.

Richard L. Craun, Director
Construction & Engineering Division
